Employee COVID exposure outside of work

Is the employee symptomatic?

NO

Asymptomatic Employee: Is the exposure considered a household contact or prolonged close contact* exposure

YES

Do not report to work. Report exposure to supervisor and follow employee COVID-19 screening guidelines

NEGATIVE

Maintain work restrictions. Repeat COVID-19 test in 5 days.

NEGATIVE

Return to work

POSITIVE

Follow positive COVID-19 asymptomatic employee testing and return to work process.

YES

Symptomatic Employee: follow employee COVID-19 work restrictions and testing process.

NO

Monitor for symptoms. Wear a mask. If symptoms develop, follow employee COVID-19 work restrictions and testing process.

NEGATIVE

POSITIVE

Follow positive COVID-19 asymptomatic employee testing and return to work process.

*Household exposure/prolonged close contact includes all household members, and/or intimate contacts.

*The only situation where an asymptomatic HCW who is exposed to COVID would not come to work would be if they live with a known COVID+ household member and/or intimate partner contact.
